SOUTH SAN FRANCISCO, SAN MATEO COUNTY, CALIF., THURSDAY, SEPTEMBER 11, 1924

### CONSTRUCTION OF BAY SHORE AGREEMENT IS HIGHWAY IS STARTED WITH CELEBRATION HERE TODAY

### HUNDREDS SEE SAN RANCISCU UFFICIALS CELEBRATION Association with City Attorney John F. Davis in the city hall last Saturday morning. The plan is to be embodied in a new ordinance regulating electrical ininance regulating electrical ininance regulating electrical inspection which is to be considered A new element of mystery Laifornia, according to statements of Davenport R. Phelps, secreto Develop the local chamber of commerce, who returned Tuesday to be embodied in a new ordinance regulating electrical inone time Barbary Coast entercharge of the San Mateo county to be considered tainer. FRANCISCO OFFICIALS

## Din of Whistles and Honking of

Actual construction of the Bay Shore highway was begun at 10:10 this morning, when Mayor James Rolph of San Francisco and Supervisor Ralph McLeran, chairman of the finance committee of San Francisco's board of supervisors, jointly turned the first spadeful of earth on the site of the new highway on the southwestern edge of this city.

The parade, which started at 11 der of the Western Meat Comvers staged in the city. It included the fire departments of San Pruno. South San Francisco. RICHARD SETTER. IS numerous fraternal organizations.

As the spade that is now a historic memento was plunged into the ground, the fire whistle atop the city hall suddenly shrieked. In reply every whistle and eiren on every plant in the industrial zone sent out its shrillest cry, and/every automobile on the site of the ground-breaking turned loose its own noise-maker. The result was a din that could be heard for miles and that continued for many seconds. It was the cheerful notice to the world that the "neck of the bottle" talk on Defense Day.

The celebration was centered crand avenue, on Tuesday, re-of a step of the property of the pr

### Blocks of Beautiful Homes

N describing any city or town with which he was impressed, the traveler will invariably say, "And there are blocks and blocks of beautiful homes!"

Question him further and you will find that few, if any, of the houses were mansions, but all of them large and small-were well kept and bainted. The beautiful home is the painted home-clean, bright and new-looking, despite its age.

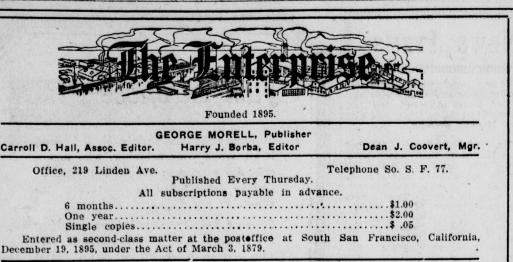

"The Way to Beautiful Homes" is the copyrighted phrase used to express the purpose of Bass-Hueter Paints and Varnishes. This is no idle phrase. It is based on the fact that since 1857, BASS-HUETER products, coast made to meet western climatic conditions, have been found by countless home-makers to be the ideal way to beautify homes.

For the exterior of your home use Bass-Hubter Pure Prepared Paint. It is made of the best materials, has maximum covering capacity and will beautify and protect your property for years. In the end it is far less expensive than cheaper paints.

For interior use the Bass-HUETER line includes wall paints, floor paints, stains, varnishes, and enamels. Color cards will aid you in selecting the finish you wish; complete instructions on each can insure successful painting.

#### JUSTIFIED FESTIVITIES

No Ground-Breaking Celebration Ever Meant
More Than the "Bottle-Neck Break
Movement, as Its Opponents Aver ing" Ceremonies Today

Of course, we have not begun to realize, even dimly, the far-reaching significance of the event that is being celebrated today-the breaking of the "bottle-neck" that has choked mittees having in charge the program for per month. the commerce and traffic that should flow up and down the peninsula. But we know localities are handicapped by hostility born petition for distribution; settled petition for distribution for distribution; settled petition for distribution; settled petition for distribution for distribution; settled petition for distribution for d enough about its importance to justify the of prejudice. festivities that have been planned.

There are celebrations in which people take part out of a sense of duty and others that they take part in just because they want to have a gay time somehow or another. But the Bayshore Highway Opening is a celebration in which everybody is taking part because he is so uncontrollably proud and happy that he can't help it.

What the driving of the Golden Spike once meant to transcontinental traffic, the opening of the Bayshore highway means to the peninsula and to that larger region which is linked to San Francisco by the peninsula.

#### BUYING AT HOME AND CREDIT

Business is good in South San Francisco. There are two real proofs for that assertion to be found on Grand avenue alone. The first initial steps necessary to muster the nation's man, demurrer to complaint; sub- ahan; granted, bond \$100. There are two real proofs for that assertion is the new Chevrolet building which is to be opened to the public tomorrow night. The second is the new Martin building now under construction in the 200 block on Grand avenue which is to be occupied by the telephone company and will have store space also.

Buildings are a good meter of a town's prosperity. A survey of the entire city will emergency declared by congress, would be ingles. The telephone on the city desk pany vs. Leon Douglass et al., moshow new buildings for all purposes being used in procurement of man-power under assistants lifts the receiver. He tion for dismissal of action; suberected constantly.

ing seems to be resuming its natural stride. The merchants are putting their goods before the buying public through attractive window and counter displays and by advertising in the newspapers.

Two circumstances work against the merchant and they can be overcome only through of a national emergency. By such enrollment And so when the paper goes to a change in the buying habits of the people of South San Francisco. Too many people enroll or enlist in any future emergency. are buying outside of this city and entirely too many are asking the merchants for credit. It seems to be a double-barreled proposition. The cash money is often spent elsewhere and the local storekeeper is asked to extend Enough Money Is Made Available for Build- surprising that mistakes in the lowing:

### Vincenzi Sapone, foreman of NEWSPAPERMAN

REDWOOD CITY, Sept. 11 .an illegal manner. Sapone was man, has been awarded the first and San Francisco police autho-haled into court by Game War-den, lack Burke. The control of the court of the c

haled into court by Game Warden Jack Burke, who arrested him yesterday.

"Polenti," it appears, is an Italian stew made from such delicate fowl as gold finch, wild canary and other non-game birds. Its delicacy is of wide repute.

Sapone, according to Game Warden Burke, utilized a method in procuring birds for his "polenti" yesterday in a manner sequel to prize of \$15 offered by the Calibration in a fire song contest designed to stimulate interest in the fight against forest fires.

DeGroot's song was a parody on "It Ain't Goin' to Rain No More." Second prize went to Enos N. Faria, Hanford, and third prize to Miss Marguerite Miller, Guerney Franklin Swart, the charges being the outgrowth of a reported embezzlement and sale of an automobile by Peterson last year.

wires of about three feet in length. together with a gallon can of "bird lime," the Colma man set forth in the surrounding vicinity to snare the gold finch and the canary.

On the wires he lathered the "bird lime." These he then shoved promiscuously about in the bushes. The rest was easy. The unwary birds, attracted by the "bird lime." would fly to the stuff, alighting on the lathered wires. The effect would be the same as that of a fly lighting on fly paper.

Sapone would then twist the necks of the birds and so much more amuunition for the "polenti" would be at hand.

Game Warden Burke witnessed the "trapping" of the birds sufficiently long to gain evidence against the man, following which the arrest was made.

When driving to Pescadero about a 'year ago in a machine owned by a King City man, wrecked the car near La Honda, with the result that he offered to sell the dampaged car to Hildebrand for a sum said to be in the neighborhood of \$50. The car not being his own Peterson made himself liable to two felony prosecutions through the sale of the car.

The indications are that the registrations will exceed 1,250. Reports from the San Francisco bay district point to a caravan of 200 machines and about 500 members from the North.

ALL HIGH IN ENGLAND-PRICES, TAXES AND HEDGES Car Owner There Has a Hard, Tough Way to Travel

THE STREET STREET, STR

ENGLAND ONE CAR FOR EACH 75 PERSONS

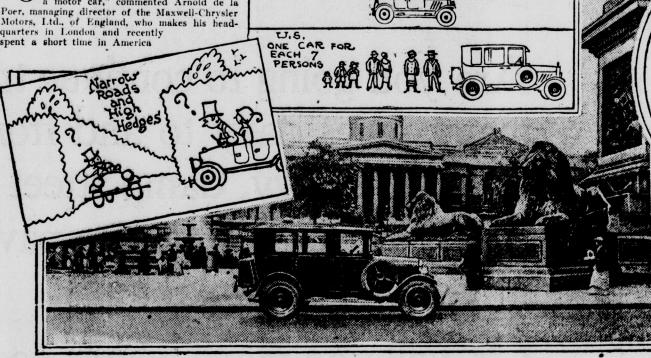

So the Buyer Seeks for Car that Will Last the Longest, Expecting at Least Five Years of Perfect Use.

NE of the advantages of living in America is that here it is much easier to own a motor car," commented Arnold de la Poer, managing director of the Maxwell-Chrysler Motors, Ltd., of England, who makes his headquarters in London and recently

多

See .

lifferent answers,

Many London Dealers Display Models Against Historic Backgrounds, as Shown Here in Trafalgar Square.

preparatory to the introduction of the Chrysler Six in England. "At the close of last year there were, 642,853 motor vehicles registered in England," said Mr. de la Poer. "This means one car for every 75 inhabitants while here in America you have a car for every seven inhabitants. Why this difference? Partly because of the high income taxes in England. For example, a man earning \$10,000 a year in England must pay a thirty per cent tax. As the income in-

creases, of course, the tax increases.
"Taxation of motor cars is much higher in England than it is here. There a tax of one pound per horse power is levied. An owner of a Ford car, for example, pays 23 pounds a year which means more than \$100 a year tax. This tax is based upon cylinder measurements as observed by the Royal Automo-bile Club. Bore and not stroke is the basis of computation. As a result of this plan of computing taxes England has developed cars of small bore and long stroke and conse-quently a highly efficient car has been produced

been produced.

"The day of the low horse power car in England is fast disappearing just like the tendency here is toward six cylinder cars.

"In levying taxes on the horse power basis English lawmakers evidently thought they would effectively meet foreign competition. But such has not been the case and what is equally interesting is that England has ruined her own export business. Australia, New Zealand, South Africa and India are buying and prefer American made cars to the English makes.

"Driving licenses, insurance rates and garage rents in England are about the same as here. Gasoline

problem in England. In London our problem is to get rid of our horse-drawn vehicles. To do that would be to speed up traffic considerably. We have no one way streets and no synchronized traffic.

"England has some of the finest roads in the world. But those roads are narrow and usually hemmed in by hedges. These high hedges made it impossible to see around corners with the result that fourwheel brakes are of special value in England.

"The motor car that is good enough for one country is not nec-essarily good enough for another. The motor car purchaser in England is a critical individual. If he pays 400 pounds for an automobile he expects 400 pounds' worth of service and manufacturers learned long ago to give it. Certain makes of cars which have been successful in America have been complete failures in England. The car which gives the most for the money is the car that enjoys the greatest respect in England. The average Englishman plans to get five years' use out of his car at least.

"The used car problem in England is not nearly as serious as it is here because we have fewer cars." Of the 642,853 cars registered in England 468,490 are passenger cars and 173,363 trucks. California, Illinois, Michigan, New York, Ohio, Pennsylvania and Texas all have more registered cars than all of England. Last year England imported 7,582 American cars. Australia imported 25,817 American cars and Canada 11,012 cars.

Both the Chrysler and the Max-well cars will be exhibited in London during the annual autom show there in October.

#### **BRUTALITY LAID** TO HUSBAND IN **DIVORCE ACTION**

Numerous instances of alleged brutality on the part of her husband, Duane S. Wright, former proprietor of the Saddle Rock Restaurant in this city, are detailed in a suit for divorce filed against Wright in the superior court yesterday by Mrs. Lauretta M.

The Wrights were married in Chicago on June 19, 1918, and have two small children, the eldest of which, according to Mrs. Wright, her husband has "forcibly and without cause taken from her. She seeks custody of both chil-

In January, 1923, at a time when she was on crutches due to illness, Mrs. Wright charges, her husband struck her in the face, scratched her arms with his finger nails, tore her knuckles and dragged her

about the house.

In July of this year, Mrs. Wright declares, her husband pushed her over two chairs, with the result that she was so badly hurt as to require care of a physician.

During last month, the divorce complaint continues to charge, Wright struck his wife on the nose, causing it to bleed, and on August 25, the date of the couple's separation, he is alleged to have torn both his wife's hands with his finger nails until they bled

freely.

Mrs. Wright likewise charges that her spouse has been consort ing with a young woman, and that he brought her on various occasions to the Saddle Rock when she, Mrs. Wright, was absent therefrom.

A suit naming Wright and his wife as co-defendants in an action to recover \$345.30 alleged due for merchandise sold for their Saddle Pock Restaurant, was likewise filed in the superior court this morning by Peter Lind of South San Francisco.

streets were reduced to ashes and two homes were destroyed before "CASEYS" ELECT fire was finally brought under SAN JOSE, Sept. 11.-James P. ontrol.

The fire originated in lumber knight of San Jose Council No. iled over an area of a block and 879, Knights of Columbus. Other half in the lumber mill. Several officers have been chosen as folnundred thousand feet of lumber lows: Dr. J. L. Pritchard, deputy ance at every Sunday school vere in flames before the fire grand knight; August Speciale, was discovered by six-year-old warden; Frank Santana, chancel-August Speciale, Bobby Walker, living at 518 South lor; Peter Morettini, recorder Charles McGovern, financial sec Bobby rushed to his mother, retary; Louis J. Fatjo, treasurer; who summoned the fire depart-ment. The blaze had enguifed V. Bressani, outside guard.

the entire lumber yard before the San Mateo apparatus arrived at borough and Burlingame and ne scene. scores of volunteer fire fighters Help was summoned from Hills-were enlisted.

## **BREAKS WORLD**

Witness Is Also Taken for Interference with Officers

Construction crews of the Pacific Gas and Electric Company working at the intake of heading No. 1 of the Pit No. 3 tunnel in Shasta county, have broken the world's record in tunnel construction by driving and timbering 600 feet during the month of August. This tunnel is 20 feet in diameter and to make the record the crews advanced 25 feet per day for the last three days, which is also a daily record on this job.

Records of about 800 feet per month have been made in hard rock not needing timbering, and records of over 1,000 feet have been established in soft foundasplendid orchestra from 8 to 12 to Clarence Schmidt, of Woodrow Monday evening and from 2 to 6 treet, was stolen from Fifteenth Street between Mission and Vallong the street of this size has through agglomerate rock, dirt, via Haubrich, Bennie Haubrich, and Mrs. Ernest Barsi, and Stephen Fischer are spending Mrs. Bartochi, Mrs. Gianichini, timbered in a month.

The work was done by three 8-Kenneth Russi has returned to motored to Sonoma county to Sacramento after spending several spend the week-end with relatives. muckers and one man at an air-El Carmelo Parlor, No. 181, operated steam shovel. The work FOR RENT—Nice sunny rooms in private family. Apply 417 Linden ave., South San Francisco.

Mr. and Mrs. C: Cattori and Native Daughters of the Golden Was in charge of R. N. Scott, under the control of t Daly City, under the direction of of the heading when the record night foreman. The six shift bosses on the job were: M. Ta-kola, M. Kruaich, J. McLaughlin,

kola, M. Kruaich, J. McLaughlin, T. Posozivich, R. Gurick and B. Lewis.

The record made on No. 1 heading and the favorable progress in the remaining headings insures completion of the four-mile tunnel by January 1 1925.

Twenty-four hundred feet in all have now been driven. The engineers in charge have considered the tunnel the most uncertain feature of the development. With the work now completed they afrounce that there is no doubt that the plant will be completed and in operation July, 1925.

When this development is decayed, to the recessary with the matter of the state of California, in and for the County of San Mateo, Court of the State of California, in and for the County of San Mateo, State of California.

SOUTH SAN FRANCISCO, SAN MATEO COUNTY, CALIF., THURSDAY, SEPTEMBER 11, 1924.

## CHEVROLET BUILDING TO BE OPENED TOMORROW NIGHT

## PUBLIC IS INVITED TO INSPECT SOUTH CITY'S NEWEST BUSINESS BLOCK

#### Edgar H. Lewis Plans Huge Reception and Housewarming in New Headquarters on Grand Avenue

Marking another huge step forward in the business life of South San Francisco, the magnificient new Chevrolet Building at 340-342 Grand Avenue will be opened to public inspection tomorrow, Friday evening, at 7 o'clock. Built to accommodate the fast growing business of Edgar H. Lewis, Chevrolet distributor in this district, the structure is one of the finest of its kind in the county.

Designed by experts in the garage building business so that every branch of an automobile agency is provided the means of best serving the public, the structure stands as an added monument to the enterprise of one man and to the confidence of the public in the Chevrolet automobile.

Construction has been going on under R. C. Stickle, building is thrown open for public inspection toselves of the opportunity to inspect the building at the invitation of Lewis.

provides passage into the spacious storage and repair Grand Avenue in March, 1923. room in the rear.

#### Storage Facilities Great

cars. An exit way is provided into the alley at the quarters at 315 Grand Avenue. rear of the building. On either side of the exit are the work benches of the repair department and the

The sales and display rooms are so planned as to provide a maximum of both beauty and convenience. A wide balcony is built along the entire rear wall and beneath this balcony are the offices of the agent, a modern ladies' rest room, and show cases for Chev-

#### Furnished in Blue-Gray

The room is finished in light tan with the woodwork in blue-grav. Wicker furniture of the same tint! as the woodwork will serve to ephance the new Chevrolet De Luxe models which will be displayed during the opening evening and the ensuing days. The display rooms will be illuminated by the indirect system of lighting.

Edgar H. Lewis, whose success in building up a Chevrolet patronage in this district has made possible any time to inspect the plant.

#### Will Give "Service That Serves"

With the opening tomorrow of Edgar H. Lewis' Chevrolet headquarters at 340-342 Grand avenue, the proprietor will be able, better than ever, to carry out his policy of giving "service that serves".

"When a man buys a Chevrolet from me, I want him to know that my interest does not cease there. I want him to know that he will find here at all times the kind of service he needs in order that he may reach the ultimate pleasure of motor car ownership.

"Increased storage space and equipment will enable me to care for the ever-growing number of Chevrolet fans".

the erection of the new addition to South San Francisco's business district, has been a resident of South San Francisco for the past 15 years.

## AUTO BUSINESS Man's Conquest of Time NOT GAME, The progress of mankind, from the earliest recorded ages, has

been marked, by a ceaseless struggle against the limitations of time Chevrolet dealers are of the "new school" in that they do not look upon the automobile business transportation.

A useful lifetime should not be measured in hours lived, but in prices. The capital you would other wise tie up in costly transportation equipment is not required with Chevrolets. This capital is released for profitable use in your released for profitable use in hours lived, but in deeds done. Doubling man's productive capacity offers the same net results as doubling his period of usefulness or doubling the number of a released for profitable use in your released for profitable use in your released for profitable use in hours lived, but in deeds done. Doubling man's productive capacity offers the same net results as doubling his period of usefulness or doubling the number of a released for profitable use in your released for profita

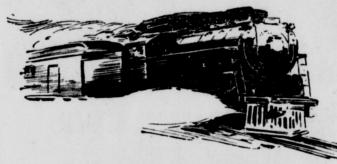

has multiplied the producing power of man, by decimating time and distance, and by providing a broad and flexible means for the transportation of men and their products.

ciation. It means a high degree of dependability, with a minimum of time out for repairs.

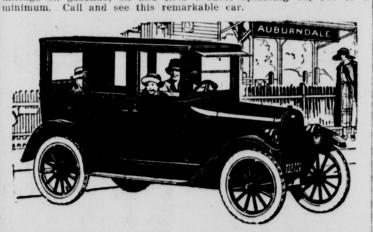

A leaky seam in a gasoline tank the amazing growth of the automobile more than justified itself as an economic painting the joint with common mizer of man power, a stimulator of production and a creator of painting the joint with common mizer of man power, a stimulator of production and a creator of painting the joint with common mizer of man power, a stimulator of production and a creator of painting the joint with common mizer of man power, a stimulator of production and a creator of man power.

Chevrolet epitomizes the progress of industry to date along the line of maximum economy consistent with modern requirements as to engineering efficiency and satisfactory quality. The wonderful increase in sales proves that Chevrolet is leading in the evolution of the feet before the eyes of the driver In driving, the first rule is to individual transportation which measures and records the progress of

Chevrolet provides individual transportation at the lowest averag per-mile cost. It is easy to finance the purchase of a Chevrolet. Quality construction insures long life and freedom from repairs. High mileage on gasoline, oil and tires reduces operating expense to

# TWO EVENTS!

TOMORROW =

the new Chevrolet Building on upper Grand Ave. is to be opened. It stands as a monument to progress in South San Francisco and as an institution of service to the ever-increasing motoring public.

Two months ago the Enterprise Twilight Baseball League was launched. Men who had known each other only because they worked together started to play together. Now approximately 100 men are actively engaged at least once each week in healthy outdoor exercise.

Both of these events mean much to the life of South San Francisco. One is a milestone in the commercial progress of the city; the other a step toward a happier, healthier citizenry through the encouragement of the proper use of leisure hours.

Edgar H. Lewis is to be complimented on the progress he has made and upon his fine contribution to the city's business district. The men of South San Francisco are to be congratulated. They work together. Now they have learned to play together.

# South San Francisco Land and Improvement Co.
